DETAILED ACTION

1. Applicant's response filed on 06/16/2004 has been fully considered. All previous rejections have been withdrawn in view of Applicant's amendment and comments.
2. Claim 1 is amended, claim 12 is cancelled, claims 14-33 are added, and thus claims 1-11 and 13-33 are pending.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. The specification is objected to under 35 U.S.C. § 112, first paragraph, as failing to provide an adequate written description of the invention. The applicant has failed to incorporate a foreign test standard in the specification.
5. The incorporation of essential material by reference to a foreign application or foreign patent or to a publication inserted in the specification is improper. Applicant is required to amend the disclosure to include the material incorporated by reference. The amendment must be accompanied by an affidavit or declaration executed by the applicant, or applicants attorney or agent, stating that the amendatory material consists of the same application. *In re Hawkins*, 486 F.2d 569, 179 USPQ 157; *In re Hawkins*, 486 F.2d 569, 179 USPQ 163; *In re Hawkins*, 486 F.2d 569, 179 USPQ 167.
6. In order to avoid a 35 U.S.C. § 112, first paragraph rejection when the applicant attempts to incorporate a foreign test standard in the specification (JIS P8138A), it is

Art Unit: 1774

recommended that the applicant further incorporates the standard in the specification or submit an English translation of the standard.

7. Claims 1-11 and 13-33 are rejected under 35 U.S.C. § 112, first paragraph, for the reasons set forth in the objection to the specification.
